### SUMMARY

Enfoqué Images is a full-service photography and videography studio serving the construction industry. We proudly provide seamless service on location as a supporting function to Quality Management throughout the contract period. Our team offers premium photographic documentation of existing conditions, mobilization, safety setup, material storage, demolition, construction progress, inspection punch list items and final close-out. Project & Safety Managers also utilize our cinematic visualization for ongoing internal crew training. Please consider placing the photographic needs of your next construction project with Enfoqué Images – an outstanding MWBE and Small Disadvantaged Business!
